PROUDLY AUSTRALIAN MADE & OWNED

OUR STORY

Based in Melbourne, Victoria, Atlas Caravans is a proud family-owned business dedicated to delivering Australian-Owned, Australian-designed and Australian-built caravans that offer exceptional value without compromising on quality.

Our mission is simple: to provide caravan buyers with a van that's approachable, built to last, and packed with premium features both inside and out. Every model is carefully considered, ensuring comfort, durability, and style come together in a package that suits real Australian travelling conditions.

From the frame up, we construct every Atlas caravan to exacting standards using proven building methods and quality-checked materials. Our team is committed to craftsmanship you can rely on, giving you and your family the confidence to travel further, stay longer, and make the most of your caravanning lifestyle - now and well into the future.

Inspired by our own caravanning adventures, we've designed the RVO and brand new and flagship RVX Range to reflect how Australians truly travel.

See you at the campsite!

PROJECTA

Powering every journey is Projecta, a brand synonymous with premium Australian engineering and dependable energy management. Renowned for innovation and quality, Projecta systems are designed to deliver seamless, intelligent power—ensuring your caravan performs effortlessly whether you are exploring remote destinations or enjoying the comfort of a powered site.

Projecta technology provides smooth, efficient energy control, protecting your batteries while optimising performance across all power sources. The result is a quiet confidence in your electrical system, allowing you to enjoy modern luxuries on the road without compromise.

Built to withstand Australia's demanding environments, Projecta offers reliability you can rely on, journey after journey.

Our commitment to excellence is reflected in our choice of Projecta across our range. RVO models feature the refined Projecta PM435C, while our flagship RVX models are equipped with the commanding Projecta 180Amp Inverter/Charger, delivering enhanced capability and superior power management for those who expect more from their adventures.

CRUISEMASTER

At the core of every caravan we build is Cruisemaster suspension, a premium Australian-engineered system that sets the standard for ride quality, stability and durability. Cruisemaster's reputation as a leader in all-terrain towing technology comes from decades of innovation, rigorous testing and real-world performance that delivers confidence on every road, track and adventure.

Designed to enhance handling, reduce road shock and improve overall towing comfort, Cruisemaster systems provide a smooth, controlled ride whether you're cruising the highway or exploring remote destinations. Their suspension solutions are engineered for strength,

reliability and longevity, giving you peace of mind no matter where your journey takes you.

Our RVO range is equipped with the proven Cruisemaster XT Coil Suspension, offering a balanced combination of strength, comfort and reliability. For those seeking the ultimate in ride control and adjustability, our RVX range features Cruisemaster Airbag Suspension, delivering superior refinement and performance across varying terrains and load conditions.

By choosing Cruisemaster across our entire range, we ensure every journey is supported by confidence, comfort and uncompromising quality.
